Campers are encouraged to bring their trendiest styles for the runway!

Did You Know?

North America was named after the explorer Americo Vespucci. **North America** is the only continent that has every kind of climate. Mount McKinley, in Alaska, is the tallest point on the continent.

Campers have been swim tested and are ready to plunge right into their lessons on Monday! Level 1 will be practicing blowing bubbles, kicking, and supported floats. Level 2 will be working on submerging their heads (don't forget to pack those goggles) as they glide through the water on their bellies. Our Level 3 campers will be reviewing the streamline position and alternate side breathing. Ed and the swim staff are excited for the week ahead!
